

SPECIAL AMO PHYSICS mini-SYMPOSIUM

**"Doppler Free High Efficiency Coherent Emission in an EIT Gas"
(Experiment and Theory)**

Shi-Yao Zhu

Hong Kong Baptist University

**"Interference between driving and dissipation in the spin-boson
model: Effect of counter-rotating terms"**

Hang Zheng

Shanghai Jiao Tong University

"Coherent control of cooperative light scattering"

Jörg Evers

Max-Planck-Institut für Kernphysik

"Hawking and Unruh Radiation"

Michael Duff

Imperial College, London

Monday, October 4, 2010

Activities begin at 11:30 a.m.

IQSE 578

**Texas A&M University
Institute for Quantum Science & Engineering**

(Pizza and soda to be served at 12:30 noon)
